VITASUN LIVE

01 BIOGRAPHY

SONGS FOR THE NIGHT DRIVE

VitaSun is a live indie-pop band based in Bangkok, Thailand, with roots in Siberia. Fronted by singer and guitarist VitaSun, the four-piece pairs live guitars, bass and drums with synths and electronics — a sound that moves between indie-pop, new wave and nu-disco: melodic, nostalgic and made for the dancefloor.

VitaSun grew up on Michael Jackson, a-ha and U2. He started out as a drummer, was playing in local bands by the age of 14, and began writing original music in his early twenties.

The 2019 single *"Our Hearts"* arrived with an animated music video by GloriaFX, premiered on Medium, and was picked up by TV channels, video pools and radio in the US, the Caribbean, Europe and beyond. In 2026 the band returned with *"Over The Clouds"* (released 12 May 2026, reviewed by Vents Magazine) and *"Night Sky"* — a single now available in four moods and praised by the Heatwave! blog for its ethereal atmosphere, dancefloor groove and brass.

VitaSun releases on M.G.I Label (Bangkok), distributed worldwide by Symphonic, and is open to showcase, festival and club bookings.

NIGHT SKY

Night Sky – Official Music Video (September 2026) · youtu.be/uNIW3swZvwQ

"Night Sky" is about the freedom to be yourself — breaking through the invisible boundaries that hold us back. A melancholic, nostalgic indie-electronic song with a warm nu-disco groove and a hook carried by voice and guitar.
